Automobile Destroyed.

Cape Girardeau, Mo., Oct. 16—Charges of the honesty against government officials connected with investigation of Captain O. M. Carter's affairs as a government engineer were made by Attorney Stone, counsel for Captain Carstub shad been seized by the government, had asked Captain Carter to produce certain check book stubs. Thereupon Attorney Stone declared the stugs had been seized by the government some time ago and everything favorable to Carter's case was destroyed, while the unfavorable documentary evidence was saved.

TWO KILLED AT A DANCE.

Old Feud Breaks Out in Florida with Fatal Results.

St. Augustine, Fla., Oct. 16.—George and Edward Carter were killed and several others were injured at Moultrie after a dance, as a result of a feud between the Osteens and Carters

The feud began several weeks ago with a fist fight between members of the two families. Osteen is reported to have gotten the better of the fight and truoble has been expected ever since.

Members of the two families attended a dance given at Moultrie last night. During the dance nothing happened to indicate that trouble was brewing, except that all parties drank considerably.

After the dance was over and the crowd had left the hall, eye-witnesses say that George Carter approached Allen Osteen and told him he would have to fight. A fist fight followed and Carter soon had his adversary on the ground and was punishing him severely.

Then a pistol shot was fired and George Carter staggered and fell dead. A second shot from the crowd was heard and Edwar Carter ran a short distance and fell dead. Both died almost instantly.

Excitement was high an those present could not say who fired the shots.

TAGGART IS GRANTED DIVORCE.

Mrs. Taggart Loses Possession of the Children—Was Celebrated Case.

Wooster, O., Oct. 16—Judge Eason, who heard the divorce case of Captain Elmore F. Taggart against his wife, rendered his decision this afternoon. The court grants Captain Taggart the divorce and the custody of the two children, Culver, aged 11, and Charles, aged 7.

Although Mrs. Tagart is denied possession of the children she will be permitted to see them. Captain Taggart was in court during the reading of the decision. Mrs. Tagart is ill and was not present The court room was crowded with an eggerly expectant throng of people.

Judge Eason, before giving his decision, reviewed the petitions, cross petitions, answers and affidavias. In the course of his statement, Judge Eason said that the testimbony was deeply touching. The charge of drunkenness against Captain Taggart, the court said, was not sustained.

Baggage Monopoly Smashed.

Atlanta Ga., Oct. 16—Judge John T. Pendleton made it emphatically and pronouncedly plain to the parties at interest and to those who were within the court room at the time he delivered his decision, that a competition in the bagage and transfer business at the Atlanta Terminal station was not only within legal bounds, but that it was a part of the common property of the general traveling public. It was in rendering his decision in the injunction case brought by the American Baggage and Transfer company, against the Atlanta Terminal station, and the Atlanta Baggage and Cab company, that Judge Pendleton so expressed his judicial views.

Charred Remains Are Found.

Chicago, Oct. 16—The charred remains of Joseph Kanirus and his three months' old child were found in a closet beneath a stairway in a three-story tenement today after a fireman had extinguished a fire which is thought to have been of incendiary origin. During the fire a number of terror-stricken occupants of the house leaped from the windows. The firemen incline to a belief that the supposed incendiary was Kanirus and that his object was suicide. He had quarreled with his wife.

FRENCHMAM WINS AUTOMOBILE RACE

Covers 283 Miles in Four Hours and Thirty Minutes.

KEENE HAS A NARROW ESCAPE

The Great Automobile Race for the Vanderbilt Cup Is Over and the Prize Goes to France—Lancia, Who Finished Fourth, Entered Protest.

New York, Oct. 16—Hemory, driver of an 80-horse power French machine won the automobile race for the Vanderbilt cup on Long Island today. His elapsed time was 4 hours, 36 minutes, 8 seconds.

Heath, driving a 90-horse power French machine, was second. His elapsed time was 4 hours, 39 minutes, 40 seconds.

Keene Has Narrow Escape.

Foxhall Keene had a narrow escape at Albertson's corner. He was making his sixth lap at a double reverse curve and was followed closely by Heath. Keene made one turn all right, but on going round the other the machine skidded and his machinist was hurled out in front of the car. Keene stopped the racer in time to save the machinist's life. Had the car gone 6 feet further, the man would probably have been killed.

Lyttel's American machine threw out his mechanic, Tattersall, on a curve at Red Ground ditch, north of Roslyn, and Lyttle went without him. Tattersall turned a somersault but escaped without serious injuries. A little further on Lyttle picked up a new machinist.

Cedrino, the Italian driver, dropped out of the race at the third round owing to trouble with his tire.

Wagner's French machine dropped its gear cover on the sixth round and he dropped out of the race. Jenatzy's machine blew out a cylinder on the fourth round. Campbell, driving a German machine, had trouble on the first round. It was reported that the machine had dropped its gasoline tank.

A number of persons narrowly escaped being run down by Wagner at Hdye Park. Other machines had just passed but a crowd surged into the roadway. Wagner's machine was almost upon them before they received warnings. All got out of his way.

Duray was delayed for six minutes at Hyde Park, and Heath was held up for a short time to make repairs to his carburetter.

Lancia when leading in the race had a collision with Christie on the Willetts road, half a mile west of the double curve. Christie following Lancia, and as the former came along Lancia pulled out of his way, but nevertheless the two cars came into collision and Christie's racer turned a complete somersallt. The machinst of Christie's car had one rib broken and Christie's right leg was injured. The machinist was taken to the Nassau hospital.

Coal Operators Are Active.

Chicago, Oct. 16—Alarmed by activity among the anthracite coal operators, John Fahey, T. D Nichols and W. H. Dettry, leaders of the mine workers, who have been here for a week, will return to Pennsylvania today. I have not been advised officially, said Mr. Fahey, but I apprehend that all the operators of the country are planning to convene in Chicago on Nov. 22 and agree on concerted action next April when the miners' agreement expires I am anxious to get back home and discover what is going on.

Another Banker Dies Suddenly.

Chicago, Oct. 16—A dispatch to the Tribune from Peoria says that the Dougherty scandal has claimed another victim. Driven to desperation and nervous prostration over the disclosures compromising his bank, and fear of a disastrous run on the Hudson Burnham, a venerable stockholder in the Peoria National bank died suddenly last night. He was 79 years old. Mr. Burnham owned 160 shares of stock and had been connected with the bank thirty years. His wealth was estimated at $500,000.

SIX PEOPLE ARE INJURED.

Automobile Dashes Into Fence and Plunges Into Tunnel.

New York, Oct. 16—Miss Vic Brumer and Mrs. C. R. Doyd, who are believed to be residents of Syracuse, were injured this morning and they have little chance of recovery when an automobile in which they were riding plunged through an iron fence and then into the tunnel in Park avenue and Twenty-third street. Chas. Gelhaus, owner and driver of the automobile, was severely injured. He was cared for and then placed under arrest.

The other injured are Mrs. E. Wilde, of No. 215 West Thirty-fourth street, and Mr. and Mrs. Spridorf, patrons of the Criterion hotel.

Mr. Gelhaus, who lives in the Bronx, had invited the party to go with him in his heavy 40-hourse power gasoline automobile to the Vanderbilt cup races. The big machine started down Broadway at a rapid pace and wheeled into Thirty-third street running at a terrific speed eastward. Suddenly the machine swerved to one side of the street, smashed through the iron fence that runs along the edge of the street car tunnel opening at that point, and landed on the car tracks ten feet below.

Police who witnessed the accident found the two women pinned under the machine, and the others lying near in a partly unconscious condition. The machine was badly wrecked.

LAST DAY OF EXPOSITION.

Lewis and Clark Centennial Closes its Gates—Success crowns Efforts

Portland, Ore., Oct. 16—Today "officers and Stockholders' day" at the Lewis and Clark Centennial exposition is the last of the exposition period. After tomorrow the work of wrecking the immense exhibit palaces and state buildings will commence and in a few months all that will remain of the exposition will be a memory of its success—success as expositions go, for President Good has made public announcement that tockholders will receive a dividend of from 30 to 40 per cent on their stock—a record said to excel any exposition of like character ever held in the world.

The exposition has been a remarkable success from every standpoint. It has attracted to this city and throughout the great northwest a hundred thousand people; the exposition has attracted investors in almost every line of endeavor, and it has made known to the entire country some of the advantages which the Pacific coast has to offer home-seekers.

It is probable that with today's attendance the fair will have attracted over 2,500,000 people.

INVITED TO PEACE CONFERENCE

State Department Makes Known to the Public the Invitation.

Washington, Oct. 6—The state department today made public the invitations of the Russian government to a second conference at the Hague and the president's response. These take the shape of two memorandas, one dated Sept. 13, being an unsigned memorandum delivered by Baron Rosen to the president at Oyster Bay and the other a memorandum dated Oct. 12, also unsigned, delivered by the president to Baron Rosen in Washington.

The first memorandum is a mere recital of the opportunities of another conference with the promise to submit a detailed program by the Russians when the congress meets.

The president's memorandum is a hearty acceptance of the invitation, and directs attention to the fact that his previous circulars to the powers appear to be precisely in line with the Russian papers. The last memorandum was delivered to Baron Rosen Thursday night for transmission to St. Petersburg.

Czar Signs Peace Treaty.

St. Petersburg, Oct. 16—The treaty of peace was signed today through the representative of the foreign office refused to make any official statement on the subject. The treaty, engrossed on parchment, with the French and English text in parallel columns, was sent by Foreign Minister Lamsdorff to Peterhoff, where the ceremony of signing took place.

FIVE LIVES ARE LOST AND THIRTY INJURED

Gigantic Wave Swept Deck of Large Ocean Liner.

DETAILS OF TERRIBLE DISASTER

While the Great Ocean Liner Was Ploughing its Way Through a Heavy Sea, it Suddenly Lurched and its Decks Submerged by Water.

New York, Oct. 16—Five lives are known to have been lost and more than thirty persons injured, some of them seriously on the Cunard steamer Campania last Wednesday when a gigantic wave rolled over the steamer and swept across a deck which was thick with steerage passengers.

So sudden was the coming of the disaster and so great the confusion which attended and followed it, that even the officers of the steamer themselves were unable today upon the vessel's arrival here to estimate the full extent of the tragedy. It is possible that the five persons known to have been missing from the steerage may not constitute the full number of dead.

When the Campania reached quarantine today ten of the injured passengers were still in the ship's hospital, some of them seriously hurt and a score of others were nursing minor injuries.

The Campania was plowing along under full headway last Wednesday afternoon. A heavy quartering sea was running, but the weather conditions were far from pleasant and the big boat's decks were crowded with passengers.

The steerage deck was covered with merry-makers and there was nothing to indicate the approaching disaster when suddenly the big steamer lurched to port and scooped up an enormous sea. The wave boarded the steamer about amidships on the port side and swept clear across the steerage deck, completely filling the space between the big deck and the deck above and carrying everything with it.

The steamer's side was buried so deep that the passengers on the deck above the steerage were submerged to their waists as the immense volume of water rolled aft and then surged forward.

All the cabin passengers on the upper deck succeeded in clinging to supports while the water surged around them, and were saved, but the unfortunates on the steerage deck found themselves utterly helpless.

The irresistible rush of the waters, sweeping toward the front part of the ship, carried everything before it. Netings, heavy railings and other obstructions which had been arranged to prevent passengers being washed overboard, served their purpose only in part, so great was the volume of the rushing water. A door was smashed and through this opening first of the helpless ones who had been caught by the wave, were swept to their death. Others were dashed against the rails and other like obstructions escaped death, but many of them received severe injuries.

One young woman had both legs broken at the thigh and several persons suffered broken arms and ribs, while more than a score were bruised and battered.

Rumor of Arrest Denied.

Pittsburg, Oct. 16.—A report was received here today that Edward G. Cunliffe, the Adams Express money clerk, who is charged with the theft of $101,000, had been captured early today at Elkins, W. Va., and was enroute to this city, in charge of detectives. When the train reached Connellsville, Pa., from Elkins, a large crowd had gathered at the station, but Cunliffe was not aboard. The conductor said the report of Cunliffe's capture had preceded the train and large crowds of people, anxious to get a glimpse of the prisoner, were at all the stations between Connellsville and Elkins. The authorities and detectives in this city having in charge the search for Cunliffe, said the report of his arrests was untrue. Nothing new regarding the robbery was obtainable here today

GEORGE W. MOYERS DIES SUDDENLY

At His New Home in South Jacksonville on Sunday.

HAD NOT BEEN IN GOOD HEALTH

Was Found on His Bed Partially Dressed by His Daughter—Had Been a Resident of Jacksonville Only a Short Time—Well Known Here.

The many friends of George W. Moyers, who only left Gainesville a short time ago to reside in South Jacksonville, were shocked to learn of his sudden death, which occurred on Sunday morning.

"Mr. Moyers had been troubled for the past three months with asthma," says The Times-Union, "but was not confined to the house, and on retiring Saturday night spoke of feeling better than he had for several weeks. Yesterday morning about 7 o'clock his daughter-in-law went to his room to awaken him, and getting no response, she became alarmed, and after some difficulty entered the room, to find him partially dressed, lying across the bed, dead.

"It is supposed that while dressing he became ill and dropped on the bed, where he was found.

"Although seventy years of age, he was a very active man, and never experienced any sickness during his whole life until a short time ago, and even then the attack was supposed to be slight."

The deceased was a resident of Gainesville for upwards of six years, where he and his estimable family have many friends who sympathize with them in their deep sorrow. He was a soldier in the Confederate army, and was as loyal to the cause as any man who ever shouldered a musket. He never forgot his comrades in arms, and to show his true devotion labored zealously to secure the erection of the monument that now stands on the public square as a tribute to their memory and reminder of their valor.

With his friends in the common walks of life he was equally devoted, and he respected a man wherever he saw him. He had many admiring friends in this city, and the announcement of his death was received with expressions of sorrow and regret from all who knew him.

He leaves a wife and four children to mourn his death—Mrs. Turner Brewer of Douglass, Ga., a son who lives at Washington, D. C., a son at Lakeland, Fla., and another who operates a phosphate mine at Dunnellon. Mrs. Moyers was in Georgia when she received the news. All have the sympathy of The Sun and the people of Gainesville.

SURVEY PROGRESSING.

The Gainesville & Gulf Surveying Party Steadily Advancing.

The work of running the line of survey from the terminus of the Gainesville & Gulf Railway to Tampa is being pushed as rapidly as possible. The Brooksville Star of last week has the following:

"J. W. Patton, chief engineer of the surveying corps of the Gainesville & Gulf Railroad, was in town on Sunday and Monday, having reached a point in the survey near this place, and was preparing to move camp farther on down the line. Just where the new road is to touch Brooksville has not been determined yet and our people are anxiously waiting to see, and are ready to meet the officials and give them all the assistance possible. This road will give us through connection from the North to Tampa and put us in touch with all parts of the country. It is just what we need and will be the means of developing our splendid agricultural lands, passing as it does, through the most fertile lands of this county, or we might say through the best lands in the State, for Hernando can boast of as rich and fertile soil as any county in any State."

A Popular Officer.

The Orlando Daily Reporter, in speaking of one of Gainesville's popular soldier boys, says that "Adjutant J. W. Blanding of the Second Regiment will remain in Orlando, a guest of the San Juan, until tomorrow, when he will leave for his home in Gainesville. This officer won the hearts of every enlisted man at Camp Bradshaw. He did not make a great big noise about his work, but he simply got there just the same. The ladies all liked him and nothing but praise could be heard on all sides about Captain Blanding. He deserved it all and more too."

CRISIS OF GIRLHOOD

A TIME OF PAIN AND PERIL

Miss Emma Cole Says that Lydia E. Pinkham's Vegetable Compound has Saved Her Life and Made Her Well

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

Miss Emma Cole

Girls' modesty and oversensitiveness often puzzle their mothers and baffle physicians, because they withhold their confidence at this critical period.

A mother should come to her child's aid and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change and start the menstrual period in a young girl's life without pain or irregularities.

Miss Emma Cole of Tullahoma, Tenn., writes:

Dear Mrs. Pinkham:—

"I want to tell you that I am enjoying better health than I have for years, and I owe it all to Lydia E. Pinkham's Vegetable Compound.

"When fourteen years of age I suffered almost constant pain, and for two or three years I had soreness and pain in my side, headaches and was dizzy and nervous, and doctors all failed to help me.

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking it my health began to improve rapidly, and I think it saved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood, for I know your Compound will do as much for them."

If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to a strong, healthy and happy womanhood.

ARNO ANALECTS.

Crop Report—Hay is Proving Profitable—School Notes.

Arno, Oct. 16.—The farmers are busy gathering their crops. The corn crop is about twenty-five per cent short this year. Cotton and all other crops are very good.

Much more hay is being saved this year than ever before. There is no reason in the world why a Florida farmer should send a dollar North for hay, and we believe it will only be a few years before the farmers of Florida will raise all the hay the State needs. We can make as good hay and as much of it as any State in the Union. The writer cut this fall eight tons of hay from four acres, which was better than the best timothy hay, and as much in quantity as the best Northern timothy.

Our school—the Forest Grove school—is progressing nicely under the leadership of Prof. DeLand. The average attendance is above fifty, and increasing every week.

Prof. Allen, principal of the High Springs school, preached at Forest Grove yesterday, after which the church called him as their pastor for another year.

T. J. Terry has just finished painting his nice new house, which is quite an ornament to our neighborhood.

The school at the Brown schoolhouse opened last Monday with Miss Jones as teacher.

Miss Mary Moody, one of our popular young ladies, was married yesterday to a Mr. Boseman of Savannah, Ga.

Joseph Wilson and wife of Newberry were visiting yesterday at Thos. Brown's home, who is his wife's father.

THUGS INFEST NEW YORK.

Believed To Be Political Hirelings There to Vote Illegally.

New York, Oct. 14.—That gangs of thieves have been imported to New York to register for the fall elections on the lower East Side, was the statement made to the police today by a prisoner who was arrested after a series of bold assaults and robberies had been committed in the streets last night.

The prisoner told the police that "all the cops" in New York could not prosecute him because he had come to town only to register and intended to leave again immediately. He refused to give his real name.

The police make the charge that the thugs have registered falsely and believe they have political license to rob and plunder.

One of the gangs was pursued for an hour by the police last night who traced it in the vicinity of East Houston street by the noise of breaking windows, by evidences of freshly committed robberies and finally by finding a woman beaten into helplessness on the sidewalk.

The woman was so seriously injured that she had to be sent to the hospital. She said the gang robbed her of $5. A few blocks from where the woman was found the police discovered the robbers at work looting a butcher shop. They fled and the police got only one of them who was locked up on a charge of burglary and highway robbery.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

Retracts Perjured Evidence.

London, Oct. 14.—Lightfoot, alias Norman Battle, the cattleman who yesterday created a sensation during the proceedings in the case of Hugh Watt, the former member of parliament (who is charged with attempting to bribe a private detective to assist him in murdering Watt's former wife) by retracting his previous evidence in the case was arraigned in a police court today and committe for trial at the Old Bailey on the charge of perjury.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

Ten-Year-Old Runaway Arrested.

St. Louis, Oct. 16—Fred Wannsiret, ten years old, who says he is the son of a Cincinnati saloon keeper, was arrested here today and his father notified. The boy says he left home last week after his father had punished him, taking with him a sum of money which, he says, dropped from his father's pocket while the latter was retiring. Fred claims to have visited New York since leaving home.

SCROFULA AN AWFUL INHERITANCE

While it is true that Scrofula may be acquired under certain conditions, it is usually inherited. Parents who are related by the ties of blood, or who have a consumptive tendency, or family blood taint of any character, are sure to transmit it to their children in the form of Scrofula. Swollen glands, brittle bones, poor digestion, weak eyes, Catarrh, emaciated bodies and general weak constitutions are the principal ways in which the disease is manifested. The blood has been diseased from birth, and being in this condition cannot properly nourish the body and Scrofula is the result. A hereditary disease like this can only be reached, by a constitutional remedy and nothing equals S. S. S. as a cure for it. It cleanses and strengthens the deteriorated blood, drives out all scrofulous and tubercular deposits, and there is a gradual but sure return to health. S. S. S. supplies to the anaemic, lifeless blood the properties necessary to build back to strong, robust health, and does this gently and so thoroughly that no signs of the disease are ever seen in after life. Being purely vegetable S. S. S. is the best remedy for Scrofula; its harmless but healing ingredients enter into the circulation and replace wax-like, bloodless faces with vigorous strength glowing with health. Book with information about Scrofula and medical advice free.

I inherited Scrofula, and about seven years ago suffered intensely from it. Tried every doctor available at great expense, but grew rapidly worse; in fact, had given up all hope of being cured, and as a dying man will grasp at a straw, I was persuaded by my brother, much against my will, to try S. S. S. After taking six bottles, I felt a wonderful change for the better. I continued to take it for about six months, taking in all about fifteen bottles, which entirely cured me.

ANOTHER BRICK BLOCK HAS CHANGED HANDS

Clifford & McCollum Have Purchased Valuable Property.

SALE OF BURNETT BLOCK

Property Comprises Fine Business Lot and Substantial Brick Building Containing Five Stores—One of Best Locations in the City.

Another important real estate deal has been recorded here, Jas. S. Bodiford and J. W. McCollum, the, druggists, having purchased the Burnett block, East Main street, S.

This block is one of the most desirably located in the city that was on the market at this time. The lot is 50 feet front on East Main street S., by ninety feet on West Masonic street, and contains a substantial brick structure of one story, with five roomy stores. When the public building and the Elks' club house are erected trade will naturally drift that way, which means that this property will command good rents and a high class of tenants.

The new owners are to be congratulated upon their purchase.

MELROSE MELANGE.

Improvements at the Huffman House. People Returning.

Melrose, October 16.—Mrs. M. S. M. Caldwell and C. P. Huffman have returned from their visits North; other new arrivals are Chas. Labor and wife and Miss J. Labor of Rhine, Kas.

W. S. Yearwood and family have moved into the cottage formerly occupied by Mrs. Corpew.

The cemetery working last Monday was attended by a large crowd, who did their work in a first-class manner.

H. Jackson is changing his pumping engine from two-inch to six-inch cylinder, also putting in a three inch supply pipe, these changes being necessary owing to the demand for water, which is very fine and clear.

O. C. Husband has returned from Palatka, having been on the jury during the past week.

The Huffman House is being put in first-class order for the coming season, the first guests being due November 1st. Quite a number of rooms are already engaged by their regular winter visitors.

THE YELLOW FEVER.

Many Cases at Pensacola—New Orleans is Progressing Very Nicely.

Pensacola, October 16.—Five new cases were reported up to noon today. With Saturday's record of 11 cases and three deaths, and Sunday's record of 15 cases and two deaths, the situation is not encouraging.

Total cases to date, 504; total deaths, 37.

At New Orleans.

New Orleans, October 16.—For the twenty-four hours ending yesterday only nine new cases and three deaths were reported, and from 6 p. m. yesterday to noon today there were six new cases and one death.

Total number of cases, 8,320; total number of deaths, 432.

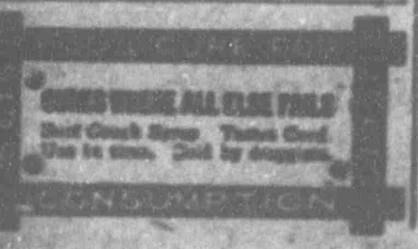
Reports from the country are also pleasing, as no new case was reported from New Iberia, and only one case at Hanson City.

Cures Chills and Fever.

G. W. Wirt, Nacogdoches, Texas, says his daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it. 50c. Sold by W. M. Johnson.

Assault and Battery.

A dark cloud seemed to hover around the county court-room at 10 a. m. on Monday, as the parties to the assault and battery case of the State of Florida vs. Tradie Johnson and Miss Linda Johnson, assembled. The parties hailed from near Kelley's mill, and Ed Johnson, a cousin of the defendants, was the victim, and the case was tried before Judge Mason without a jury. After about half a dozen witnesses had been sworn the Judge decided that the evidence was not sufficient to convict and the case was brought to an end and the defendants discharged.



The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Anarchists Cause Riots.

New York, Oct. 16—An anarchist, Domino Rocci, recently made violent speeches at Florence to some soldiers inciting them not only to leave the army, but to shoot their officers in case they were ordered to fire on the crowd in case of rioting, says a cable dispatch to The Herald from Rome. Rocci was arrested yesterday summarily tried and sentenced to forty months imprisonment. An anti-imperialist meeting was held here last evening in spite of the fact that the authorities had prohibited it. A police officer ordered the speeches to cease. The officers, however, disregarded his orders and riots following, during the course of which many people were slightly injured, and twenty persons arrested. The authorities have ordered an inquiry into the matter.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by all druggists.

Run Resumed on Bank.

New Orleans, Oct. 16—The run on the Germania Savings bank was resumed today, but it is believed that the excitement will pass with the day as the impregnibility of the institution is realized. Most of those who are withdrawing their money are the poorer classes who have not taken the trouble to investigate the story upon which the run is grounded. At the bank it was stated that every depositor who wanted his money might have it for the asking. Public confidence in the institution is so high, however, that the great bulk of the patrons of the institution will let their money remain.

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow blotched complexions by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe, and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. McCollum & Co

King Oscar Resumes Reins.

Stockholm, Oct. 16—King Oscar formally resumed the reins of government today. The king of Sweden on Aug. 10 last appointed Crown Prince Gustave to be regent while his majesty went to Marstrand for his health. The crown prince has for similar reasons previously acted as regent on several occasions.

Plans to Get Rich

Are often frustrated by sudden breaking down due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies and give you a new start. Cure headache and dizziness too. At all drug stores; 25c. guaranteed.

Girl Embezzled Money.

New York, Oct. 16—Mrsy E. Golding cashier for the Larkin Soap company, confessed in police court today that she had embezzled at least $2,000 from her employers within four years and had made use of it to support and care for her father, mother and invalid sister in Buffalo. She was sent to prison in default of bail. The young woman was unsuspected even by her employers up to yesterday, when to save another employe upon whom suspicion of her peculations had fallen she voluntarily went to her employer with the same confession she made in court today.

Profits Amount to Nearly $200,000.

New York, Oct. 16—The profits of the alleged conspirators in the operations based upon the recent bleak in the government cotton crop reports are placed at approximately $200,000, according to an indictment presented in court today on the arraignment before United States Commissioner Ridgeway, of Frederick A. Peckham and Moses Haas. According to charges made in this indictment, Edwin S. Holmes, Jr., assistant statistician of the department of agriculture, received $25,017.

Many Negroes Drowned.

Vicksburg, Miss., Oct. 16.—The one loaded with freight and with a crew of twenty-five men, the steamer Elk, while backing out from the city landing struck a snag and sunk in 25 feet of water. From five to ten negro roustabouts were drowned, but the exact number will probably not be known for several days. The loss on the boat and cargo is estimated at $25,000, partly insured. The Elk is a local steamer, which has been plying between this point and Davis Bend.

Ohio's Richest Heiress to Wed.

Dayton, O., Oct. 16—Ohio's richest heiress Miss Ada Sorg has been captured by Captain Pierce Drouillard, of the United States army, and, according to the announcement made today, the wedding has been set for Nov. 1. Miss Sorg is the daughter of the late Congressman Paul J. Sorg, of Middletowns. Captain Drouillard, whose home is in Nashville, Tenn., has an enviable war record in Cuba, the Philippines and China.

Louisville, Ky., Oct. 16—While on her way to the funeral of Fred Church who committed suicide Wednesday, two days after his marriage, Mrs. Charles Wittmer was thrown from a buggy in a runaway and her neck broken. She lived only a few minutes.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horison, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

STATE MILITIA.

The State encampment of the Second Regiment of Florida troops, which was held at Orlando last week, has been the occasion of much favorable comment regarding the excellent conduct of our soldier boys. Governor Broward was detained from visiting the camp on account of pressing engagements, but the following extract from his letter to the men in camp is very complimentary:

"As the time for the close of the encampment of the Second Regiment of Infantry, F. S. T., draws near, the commander-in-chief feels that it is but proper to express his appreciation of the reports he has received of the steady and marked improvement made by the regiment in the duties prescribed, and further to announce that the conduct of the enlisted men of the command, as reported to him, has been such as to merit the commendation not only of the adjutant-general of the State, but officers of the United States Army on duty at the encampment, as well as of the representative citizens of the community in which the encampment has been held. In this respect the Second Regiment has set an example which may well be followed at other encampments of the State troops, and it is especially gratifying that within the short space of time allowed for the annual exercises and practices of the troops in their military duties, the Second Regiment has achieved a success which only zealous and conscientious regard for the obligations imposed could secure."

QUITE RIGHT.

Although a number of prominent Republicans were named as members of the reception committee to meet the President, strange to say Henry S. Chubb and W. G. Robinson were omitted from the list. These gentlemen are candidates for reappointment as receiver and register, respectively, of the United States land office in this State, and while the political fates are such that members of the Republican party will be given Federal office, we desire to state that under such conditions no better appointments could be made, and it would have been appreciative courtesy to have given them a place on the committee.—DeSoto County News.

The many friends of these gentlemen in this city, irrespective of politics, will endorse the above. Both of these gentlemen are popular with the people and are very courteous officials.

The State military encampment at Orlando has been a very pleasant and successful one, and the boys go to their homes improved in drill and discipline, as well as invigorated and strengthened by the week of camp life. All accounts agree that the encampment has been a most gratifying success in every respect.—Tampa Daily Times.

The Tampa Tribune of Sunday was a great paper. It was filled with good reading and plenty of ads, which shows that the business men of that city are progressive. Wouldn't Take It Out In Trade.

A Welshman sued a fellow countryman some time since for a certain amount of money owing to him. The debtor repeatedly offered to take the debt out in trade, but this offer did not seem at all to suit the taste of the creditor. At last the judge asked the plaintiff the reason for his unwillingness to accept the debtor's offer to "work off the debt."

His reply was, "Well, you see, your honor, the man's an undertaker!"

How to Get Well.

Every organ of the body is directly connected with the brain by nerves. The nerve cells in the brain generate nerve force—power—and send it to the organ through these nerves, and this nerve-force gives life and action. The organs work perfectly when there is sufficient nerve power. Lack of nerve force weakens the action of an organ and it works imperfectly—becomes sick.

Two-thirds of all sickness is thus due to weak or deranged nerves; it is therefore advisable to take Dr. Miles' Restorative Nervine, because it makes nerve energy.

When you cure the nerves you remove the cause, and that's the way to get well.

"Dr. Miles' Restorative Nervine cured me of nervous prostration after every other effort had failed to give me relief. My trouble seemed to begin with a general loss of strength and a breaking down of the nervous system. I suffered from headache, constipation and fluttering or palpitation of the heart. My appetite failed and I was so nervous and restless that I could not sleep at night. My husband, who is a druggist, brought me a bottle of Nervine. It helped me from the start, and I continued using it until I had taken six bottles. My health was completely restored."
MRS. SILA M. MOREHOUSE, North Adams, Mich.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

GORKY PREDICTS REVOLUTION.

Famous Russian Liberalist Declares There Will Be an Outbreak.

Moscow, Oct. 16—Voicing the sentiments of the extreme wing of the Russian reforms, Maxim Gorky today expressed sincere sorrow at the death of Prince Troubetskey, as a man and a Russian, but declared that Russia had nothing to hope from the reported activities of such men as Prince Troubetskoy. He added:

"I regret Prince Troubetskoy as a frank, just and honest man, not as a member of the Liberal party, which can never effect great reforms in Russia. The anscestors of Troubetskoy, Galitzin and Golovin went hand in hand with imperialism. The taint is still in the blood.

"They are incapable of realizing their ther the needs of the people. The revther the neews of the people. The revolution will come soon, like an avalanche, when least expected. The disorders at Moscow will perhaps cease temporarily, but will be resumed in a month or two, with renewed force."

The case against Gorky has not been heard, but the Russian writer reiterated his determination not to permit the proceedings to be dropped. He said he would force the government to bring him to trial.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Boers Settle in Georgia.

Macon, Ga., Oct. 16—Twenty Boer heroes have made application, through their agent, Mr. J. N. Koen, for a settlement on farm lands in Bibb county. The retired soldiers are now located at Lumber City, Ga., but desire a change, because, as they state, conditions there are not favorable. They desire to become permanent citizens of this community and to develop the lands. Among them are some of the bravest rebel caieftains who fought in the South Africa cause and from all accounts it appears that the men are of sterling worth. They recently refused employment as strike substitutes saying that they were unwilling to injure the cause of organized labor.

New Cure for Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters of Duffield, Va., writes: "I had a cancer on my lip for years that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all drug stores.

Famined Farmers Seize Food.

Seville, Spain, Oct. 16—Over a thousand farm laborers made desperate by the existing famine, invaded the market place at Ecija, 48 miles from Seville, today, seized the entire stock of food and money, destroyed the markets and threw the town into a panic. The authorities hastily applied for military relief.

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

SIR HENRY IRVING DEAD.

The Demise of the Famous Actor Was Sudden—Many Express Regrets.

London, Oct. 16—The English speaking world has suffered an irreparable loss by the sudden death of Sir Henry Irving, who was universally regarded at the most representative English actor of contemporary times. Sir Hen-

SIR HENRY IRVING.

ry died literally in harness. He was giving a series of farewell performances in the English provinces and this week was playing an engagement at Bradford, appearing in several favorite roles.

Death Came as a Blow.

New York, Oct. 16—To the actors, managers and the attending public of New York the news of the death of Sir Henry Irving came as an overwhelming blow. Many declared last night that the stage has lost its greatest friend and the drama one of the most marvelous of its interpreters that ever lived.

Sorrow Expressed in Chicago.

Chicago, Oct. 16—Warm tributes to the memory of Sir Henry Irving were expressed last night by the Chicago theatrical managers and members of the profession now playing here.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Newspaper Man Killed.

Birmingham, Ala., Oct. 16—J. A. McGhee, traveling representative of the Birmingham Ledger, was killed by a fast passenger train on the Alabama Great Southern railroad at Cottondale today. He attempted to cross the track in front of the train as it approached the station and was run down and fearfully mangled.

Two Killed by Bomb.

Warsaw, Russian Poland, Oct. 16—A bomb was thrown today at the Villa of an English manufacturer. The cook and gardner were killed and the house was damaged. The bomb throwers fled, pursued by police. When hard pressed, the fugitives shot and killed three policemen and then escaped.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the envelope of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

ARCHERY AS A SPORT

THE IMPLEMENTS THAT ARE USED IN THIS ANCIENT PASTIME.

Besides Bow and Arrows Are a Quiver, Pouch, Belt, Tassel and Grease Pot, Arm Guard, Glove, Target and Score Card—The Rules.

The implements used in archery as a pastime are a bow, arrows, a quiver, a pouch, a belt, a tassel and grease pot, an arm guard, a shooting glove, a target and a scoring card.

The bow is usually from five to six feet in length, the strength being reckoned by pounds, varying from twenty-five to eighty, those used by gentlemen being in strength from fifty to eighty pounds, those for ladies from twenty-five to forty. The former are made of a single piece of yew or ash, the latter of lancewood or hickory, glued back to back.

In forming the bow the wood is gradually tapered, and at each end is a tip of horn, the one at the upper end being longer than the lower end, and one side of the bow is flat, called the "back," the other being rounded and called the "belly." Near the center, where the bow is held, it is bound with velvet, which part is called the "handle," and in each tip of horn is a notch for the string to rest in, called the "nock."

The string of the bow is manufactured of hemp or flax. The hemp strings wear the longest, though they stretch more at first, but, being more elastic, bear a harder pull. When it is necessary to fix a fresh string to the bow care must be taken not to break the composition. The tie should be cut, the eye worked at one end, held, the other part allowed to hang down and the eye passed over the upper end of the bow.

If for a lady it may be held from two to two and a half inches below the nock; if for a gentleman, half an inch lower, varying it according to the length and strength of the bow. The hand is then passed along the side of the bow and string to the bottom nock, round which the string is turned and fixed by the noose. When strung a lady's bow will have the string about five and a half inches from the belly of the bow, a gentleman's about half an inch more. The part of the string opposite the handle is bound round with waxed silk in order to prevent its being frayed by the arrow, which is sent from that point.

As soon as a string becomes too soft and the fibers too straight it must be rubbed with beeswax and a few turns given to it to shorten it and twist its strands a little tighter. A spare string should always be provided.

Arrows are variously formed, some being of uniform thickness throughout, others thicker in the center or larger at the point than at the feather end, the last shape being considered the best form for shooting. Arrows are made of white pine, having at one end points of iron or brass firmly fixed and usually a piece of heavy wood spliced on to the pine between it and the point, by which their flight is improved. At the other end a piece of horn is inserted, in which is a notch for the string, and they are armed with three feathers, one of which is of a different color from the others and is intended to mark the proper position of the arrow when placed on the string, this one always pointing from the bow.

To string the bow take it by the handle in the right hand and place the bottom end upon the ground, resting against the hollow of the inside of the right foot, keeping the flat side of the bow (called the back) toward you. The left foot should be advanced a little to the right, so placed that the bow cannot slip sideways. Place the heel of the left hand upon the upper limb of the bow, below the eye of the string. Now, while the fingers and thumb of the left hand slide this eye toward the notch in the horn and the heel pushes the limb away from the body, the right hand pulls the handle toward you, thus resisting the action of the left, by which the bow is bent, and at the same time the string is slipped into the nock, as the notch is termed. Care must be taken to keep the three outer fingers free from the string, for if the bow should slip from the hand and the string catch them they will be severely pinched.

If the bow has been lying by for some time it should be well rubbed with linseed oil before using it. To unstring the bow hold it as in stringing; then press down the upper limb exactly as before and as if you wished to place the eye of the string in a higher notch. This will loosen the string and liberate the eye, when it must be lifted out of the nock by the forefinger and suffered to slip down the limb. Before using the bow hold it in a perpendicular direction with the string toward you and see if the line of the string cuts the middle of the bow. If not, shift the eye and nock of the string to either side so as to make the two lines coincide. This precaution prevents a very common cause of defective shooting, which is the result of an uneven string throwing the arrow aside. After using the bow unstring it, and, if a large party is shooting, after every "end" it should be freed from its state of tension. But in this respect there is a great difference in different bows, some good ones soon getting cast from their true shape and others, though inferior bows in other respects, bearing any ordinary amount of tension without damage.

Two points must be attended to when taking aim—the lateral direction and the distance—since there is no bow which will drive an arrow many yards perfectly point blank, and consequently a slight elevation must in all cases be made, and for long distances with weak bows a very considerable elevation—that is, the bow must be raised above the point aimed at. The arrow cannot be shot straight at an object because it will, of course, be subject to the earth's attraction, and if shot straight at a mark will fall below it, and it therefore requires practice to manage the elevation properly, and much will depend on the exact strength of the bow and the distance of the shot. The lateral direction—that is, the side to which the bow should be directed—depends greatly on the wind, if there is any, as the arrow is materially affected by the wind. Should it blow from the right hand the bow must incline toward it; to the left, if from the left.

The distance to which an arrow can be shot from a long bow, with an elevation of 45 degrees, depends on the strength and ability of the archer. The distance used to be reckoned from 220 to 240 yards. The Turks have always been celebrated for shooting to long distances, and the secretary to the Turkish ambassador in London shot, in 1794, a distance of 415 yards. He used a Turkish bow and arrow and shot against the wind. With the wind, the distance measured 482 yards. The eyes should not be fixed on the arrow, but at the mark. Keep both eyes open and look steadily forward, and raise or lower the bow in the proper direction. The targets are fixed opposite each other at about sixty yards apart. The arrows are shot first to one target, when the archers pick up or extract the arrows, and the marker scores for each before drawing from the target, after which the archers shoot back again to the other end, and so on until the whole number of ends have been shot. Butts are also used to shoot at, being built of long mounds of turf about eight feet long and five wide, height of seven feet, the depth diminishing gradually from the bottom to the top.

When more than two are used, they are ranged in sets, each set consisting of four, about thirty yards apart, and forming a chain of lengths of 30, 60, 90 and 120 yards, but so disposed as not to stand in the way of the archers when shooting at any of the lengths.

Where archers rove from place to place and have no fixed target, it is called "roving." The archers shoot at trees or any other object that they choose. The winner of the first shot chooses the next, and so on, the distance being from 100 to 200 yards, and all arrows falling within five bows' length scoring, if nearer to the mark than the adversary's arrow. The dress worn at archery meetings is very pretty and becoming. For ladies, green jackets and hats, with three plumed feathers, and for gentlemen, dark green, with green hat and feather, but this entirely depends upon the taste and inclination of the clubs.—New York Herald.

Saved His Life.

This story is told, according to the Boston Herald, at the expense of the late General Wilmon W. Blackmar: General Blackmar was attending a camp when he was approached by a seedy looking man, who greeted him profusely. The general shrugged his shoulders and turned away, with the remark that they were not acquainted.

"But, general," said the stranger, "don't you remember how you saved my life at the battle of the Wilderness?"

General Blackmar at once became interested and he called a group of comrades over to listen, saying: "I saved this man's life once. How was it done, old comrade?"

"It was this way," was the response. "We were on a hill and the enemy advanced steadily toward our intrenchments. A veritable hail of fire swept our position. Suddenly you turned"—here the auditors were absorbed and excited—"and ran, and I ran after you. I think that if you hadn't shown the example I would have been killed that day."

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." The French Peasant Woman.

She judges a picture with both hands on her hips, and when disapproval appears in her eye one trembles for the picture. When she is actually bored, she strides across the floor to an open window, puts her elbows on its balcony rail, lays her leathery chin on her leathery hands, crosses her sturdy legs, and in this street loafer attitude refreshes her mind. Her fist is capable of a sledge hammer blow. Her husband, yeoman though he is, would hardly be a match for her. He knows it and is visibly proud of it.

I have seen Whitechapel hags rouse their shriveled, bloated selves to fight like fiends, but she, if once she were roused, would fight like a god. In fact, she is a modern type of the plow woman of mythology. If Joan of Arc had been a peasant of this type there would have been no mystery about her military prowess. She is a masculine woman in the best sense.—Lippincott's Magazine.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

MOBILE, ALA., Dec. 24, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder," Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

Yours truly,
W. B. CLARK,
M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Hiram W. Hall, sole manufacturer, P. O. box 620, St. Louis, Mo. Send for testimonials. Sold by all druggists.
